- HTML | CSS | React | NextJS | Redux | JavaScript | TypeScript | Node | REST APIs
- Firebase | Cloud Computing | WebPack | BabelUs | Tailwind | Git | GitHub | Jest | OOP
- Frontend | Backend | Full-Stack | English, Portuguese – *All professional proficiency or above*

Experience

Software Developer

KeelWorks Foundation

Oak Harbor WA

05/2023 - Current

- Led the development of the Kellworks website using the latest technologies such as: HTML, CSS, Tailwind, JavaScript, React and Redux.
- Collaborated with the significant increase of performance (from 63.43% to 95.14%), accessibility (from 93.14% to 100%) and SEO (from 88.71% to 98.86%) of the Kellworks website.
- Facilitated the implementation of constant changes and improvements on the website, migrating the entire technology stack to a newer and more efficient one.
- Learned the entire life cycle of project development, from planning, analysis and discussion with the teams to the final stages.

Objective

- I am looking for new challenges and learning opportunities at a company that values innovation and quality in software development. I have enthusiasm in applying my skills and knowledge to create impactful and user-friendly solutions.
